

# Daily Journal

(by Dr. Byeong)  
**President of Melvin University  
Oyugis Kenya**

**Fish Discover Water Last (#23, February 11, 2022)**

We have done our job today, through the successful INAUGURATION CEREMONY. That is the mission which was given by God. We have started this vision a year ago, in May 9, 2020.

How we have done this mission completed? There are some key concepts in this journey. I'd like to put this way, if we are really hunger for completion of mission, we will make it in the end, just thirsty fish will find the water finally, because if she doesn't, she will die eventually.

We, John Ogillah and I, started to talk of this vision, to make university, since last year, exactly May 9th. Once I send PDF and PPT of Dr. Melvin's materials which I developed with many years, John Ogillah told me its possible to make university, then I responded probably 10 years later, but John said in 5 years enough..by the way as you see today we have done this job a little bit more than a year.

What did we have work since then up today? First we have focused on the only in this mission in our daily life. I mean ONE thing we had live with, that's MAKING UNIVERSITY in this world. We have worked just like almost crazy, daily and monthly, actually every single seconds, we thought of it, talk about it, etc.

But one of important things is that we begun this project from the end. Why? I will tell you. I have used to get questions in my mind, "Why People is not getting ministry done completely?" I read one book, The Path of least Resistance (written by Robert Frize, 1984) many years ago, even translated it partly and taught at occasions. He started the book with the questions, "why people are not successful of their plans." Why, many people failed even they had strong determination because their energy is out at beginning stage, nearly around #3, 4. I believe you have already these experiences. That is why around 95% of people are not getting there. For instance, as you know people makes a decision to do, let's say diet, they start, and mostly stopped in three days. Sauna, Exercise, starting with good intention and firm determination, but stopping it soon. Maybe to master other languages is same. He wrote many things why, the reasons. In the end, it became my own questions since then.

Maybe this is not understandable to you. Why began from the end, not from the beginning? The reason is this and that was true from my experiences. People put a lot of energy to start up. For instance, if our ministry journey is from no. #1(starting) through #10(ending), most of people tend to stop or give up at number #3rd or #4th stage, because they used up all of their energy up to here, e.g., at beginning stage, so no energy left to keep on going up to the number 10, e.g., to the finish line. That is definitely true. Look at people around you, their final goal is far from their sight and says, in despair, "that's not mine but someone else." So starting from the end is more wise to complete. But definitely you need more energy, more self-discipline to keep this strategy, beginning from the end.

Anyway, finally we made it, OPENED Melvin University today. As I put the title, "Fish Discover Water Last," if you are really looking for the way constantly about your mission which God gave you, you will find the way and completion in the end. The matter is that how do we keeping on going until the end. There are many ways you need it.
